Froglet's Knowledge Organiser

Autumn 2

Overview

We are learning all about space this term! We have some fantastic space books to expand our imagination and think what space is like and looking within Science and History what it is like to explore space in real life as well!

Maths

After the half term break, we are now moving onto subtraction and exploring different strategies for this. We will be confident at using a number line to help solve problems, before finishing with Geometry before the end of term.

Topic

Moving to History this term, we will be exploring the first Moon Landing and how this has impacted human history. We will finish up this term looking towards the future and wondering if we could ever live on the moon!

English

Our stories this term are:

How to catch a star

The Smeds and the Smoos

Meet the Planets

We will be expanding our colourful semantics to include where things are happening as well as introducing using adjectives in our writing.

Science

This term we are going to be thinking about what life is like for an astronaut and what they need to survive in space! We will be investigating the best materials for a space ship, can plants grow without water and if there are any habitats on the moon. We will be finishing this term designing our own space homes for the moon.

PSHE

In PSHE we are learning all about our different feelings and how they might look and feel. We will explore personalised ways to manage these emotions,

PE

We are developing our foundations skills and gross motor skills.
